Dear Rinaldo,

Being back in New York is a bit of a shock - mountains of mail and upcoming shows to complete in a short amount of time. So now I escape in my mind to your beautiful part of the world, where I spent such lovely days.

Thank you for inviting me to participate in the video festival. It provided a good opportunity to talk with other people involved in the field, and to see new work. I will work on sending you the bibliography by the end of September.

In the meantime, I wanted to give you to have the addresses of the artists whose work was shown, so that they can be paid the \$50. These are listed on the enclosed page. When you have a chance, please send back Edin Velez's videotape to the Museum.

Edin was delighted with his award. He is working on a new project, and was "in the dumps" this week. So this recognition came at the right moment to cheer him and to boost his morale.

Before I close I wanted to say that you and your family all did a wonderful job, handling so many people and so much information. Your spirit, kindness, and enthusiasm is unique in this world today.

With best wishes,

Barbara J. London
