15, '89.

I am writing to you to thank you for the hospitality and organisation of your beautiful VIDEO ART Festival.

As always we were impressed by the smoothness of your organization and the interesting program. Also concerning our little exposition in Maccagno everything was wonderfully organized and we received a lot of help, especially from Michèle and the people in Maccagno, to whom we are also very grateful.

The two awards we could take home were experienced as a great honour. In this context I would like to ask you to send us all the press material (also UNITA and CORRIERE if the published), because we need it for our report to the Ministry of Culture.

I am looking forward to our cooperation next year, but we hope to be informed then a little sooner.

Our warmest regards to you and your family.
