Dear Angela,

in answer to your message, the broadcast on "Festival. Ars Tv Eutelsat Premium Channel" is as follows:

1. the channel is only accessible with a digital decoder on Hot Bird (Eutelsat satellites);
2. as you know, copying from a digital diffusion is impossible;
3. "Festival. Ars Tv Eutelsat Premium Channel" is a temporary no-profit experimental channel exclusively dedicated to the electronic arts with cultural and didactic purposes only, so we do not think you will loose any rights with any other television channel.

In waiting for a positive answer and fir your Betcama PAL copy, we send you our best regards,

VideoArt Festival
