Dear Festival organizer,

Today, I've got the competition prize in my bank.
It would be a great encourage and honor to me.

"Scherzo" is my first videoart work and got my first prize. It's very rewording that my work deal with European culture such as classical music accepted in Europe.

I visited the festival home page and found the estimation(?) for my work, but I can't understand French. Can I get English translation?

And I need my Screening copy you have now for another festival. The festival will be held at Basel in your country. It's would be great help if you send the tape to Basel. Is it possible?

Sincerely yours,

Hideo Aoshima
